If the Agency now has problems recruiting and retaining quality CTs as the attached memorandum implies, then we are in no position to object to additional incentives. However, I would vote against a retroactivity provision. Such a provision smacks of arbitrariness, especially to those one CT class removed from coverage. If we must implement this proposal, I am opposed to a sliding scale; I believe all covered CTs should receive the same number of step increases.

Chief, OP Career Training Staff

SUBJECT: Raising the Base Grade for Career Trainees

1. This is to propose that the base grade for Career Trainees be raised from the present GS-07 to GS-11 level to a GS-07/5 to GS-11/5 level, with all other particulars of our grade/salary assignment criteria for CT externals and internals remaining as before.

2. This proposal will provide a base grade salary increase for CTs of between \$2,100 and \$3,100 more than is presently being offered and may help the program attract a greater number of applicants.

3. Attached, for your information, is a copy of the "CTP grade/salary assignment criteria" as it will be revised if you approve the above proposal. As heretofore, the grade/salary criteria will apply to qualified internal applicants for the CTP as well as external applicants. We would plan to make this effective for those CTs who EOD in October 1982.

4. In the interest of providing additional financial incentive for CTs presently in the program, we propose:

a. For CTs who entered the program below GS-11:

October 1981 Class -- would receive a one-step grade adjustment at the time they receive their non-competitive promotion upon successfully completing the program.

January 1982 Class -- two step increase with their promotion

April 1982 Class -- three-step increase with their promotion

July 1982 Class -- four-step increase with their promotion as training is completed.

SUBJECT: Raising the Base Grade for Career Trainees

b. For CTs who entered the program at GS-11, in addition to receiving a one-step increase upon satisfactorily completing the program (the policy was implemented in January 1982), those entering with the

January 1982 Class -- would receive an extra
2 steps

April 1982 Class -- 3 steps

July 1982 Class -- 4 steps, as training is completed.

NOTES:

(1) If, for example, all exams have been successfully passed and an MA thesis has been submitted and officially accepted and all requirements for the MA officially met and documented in a manner satisfactory to CTS prior to the EOD date, the Base Grade on the basis of the MA may apply, even though the date of official conferring of the degree may come after the EOD date. If acceptable documentation cannot be provided, then the lower Base Grade applies. However, the Bar exam, for example, may have been taken prior to EOD by someone with a JD, but satisfactory results become available only after EOD date. In that case, the new employee should provide certification of having passed the Bar, and the EOD Grade and step will be adjusted one grade (max. GS-11, plus Steps).

(2) Persuasion: sales, interviewing, marketing; Representation: PR, trouble-shooting, advance-person; Supervision: significant in terms of responsibilities; Teaching: normally college level, could consider "difficult" secondary/elementary situations; Analytical work: Some study/research; Interviewing "village-to-village" for anthropological research, missionary private investigation, etc; Career development: moving along to positions of increasing responsibility.

(3) If an applicant is qualified and accepted by [] the CT STAT will be awarded a step increase upon satisfactory completion of [] There STAT is a separate salary differential formula for calculating final Grade/step for PMR Qualified applicants, who are on active duty at the time of CTS interviews/Processing.
